

Select the right fiber testing solution with free expert advice.

Get a free demo and free FiberLert™ today.

Fiber optic links are the preferred media type for mission-critical links in data centers, backbones in and between buildings, and networks serving campuses over longer distances. Fiber is increasingly preferred in the marketplace for use with innovative technologies that are required to support exploding bandwidth demands.

As a result, the need for fiber testing and certification has grown at a substantial rate. Fibers have proven to be a cost-effective and reliable transmission medium, but they are susceptible to contamination and link damage. It can be time-consuming and resource-intensive to identify the cause of failure.

Known for ruggedness, accuracy, and ease of use, Fluke Networks tools have been the go-to for network cabling installers, architects, and operational network technicians and engineers. Fluke Networks provide the solutions to ensure Fiber Optic links run smoothly and are capable of transmitting data effectively.

Get a free demo

If you are not sure about your actual fiber testing methodology or you want to know more about fiber testing best practices make an appointment with a Fluke Networks expert today by filling in the form and get a free demonstration on finding the best, most reliable, most cost-effective fiber test solution for you. After a demo, you will receive a free FiberLert™ and a cashback offer when you decide to purchase selected fiber testers from February 17, 2023 - July 31, 2023.

How to get the cashback?

1

Scan this QR code or visit www.flukenetworks.com/FiberTestingSolutions

2

Upon completion of the demo, you will receive a cashback claim code and a Fluke expert will register your details to ship your free FiberLert™ to you.

3

Within 30 days of receiving one of the selected Fiber testers on offer, complete the form together with your Invoice, Purchase Order and Proof of bank account ownership to receive the cashback.

Model Number	Product Description	Cashback Reward (in Euro - €)
4334849	OFFP-Q-ADD,OPTIFIBER PRO QUAD ADD ON KIT	1,000
4955392	OFFP2-100-Q INT,OPTIFIBER PRO QUAD OTDR V2, W/WIFI	1,300
